Second house and its importance: Eyes

S Sankaran

Abstract

The eye impact is observed severe in the modern day phenomenon. Extensive use of the computer, mobile and laptops lead to highest usage of bright light that impacts our eyes. The ancient astrology is studied to provide better light to the current day to show the same is being effectively transformed. We could observe every kid on an average wears the spectacles. Eventually this leads further eye related problems even lead to surgeries such as cataract. This is researched to validate in details as applicable in current day.

Keywords: Eye diseases, power loss, eye spectacles, vision impact

1. Introduction

Typically, Sun with excess planetary power of light impacts the eyes and Venus as defined in the texts says conjunction of both these planets impact the eye related illness. Eventually leads to blindness. In contrary, Saturn the dark planet also contributes to the eye issue. Venus through nervous disorders, Mars through accidents, Moon due to excess secretion. This again against the favorable transit alignment that is placed in real time.

2. Rules for the Eye diseases

Few Definition for the Eye ailments (Netra Roga) as per the book of Medical Medical Astrology by Dr. Krishna kumar are as below:

1. If the lord of the 2nd conjoints with Saturn, Mars and Mandi the native will become Nethra Rogi (eye disease). If many malefics are posited in the 2nd and if the Saturn aspects the second house, there will be chronic eye problems.
2. If a malefic is in the 1st or 12th house the native is blind and eyes are always closed.
3. If Sun is with malefic in 12th house or in a trine there will be no lustre in eyes of the native.
4. If Venus is with malefic in 2nd or 12th house the native shall be of one eyed or of poor vision.
5. When Moon and Mars fall in same degree, the native shows a mark or spot in his eyes.
6. If Sun and Moon are aspected by malefic or when they are positioned in the houses of retrograde planets or occupy 6th, 8th and 12th native shall have crooked eyes.
7. If malefic is in ascendant or the 12th house the native is blind.
8. The native will suffer from eyes problem if the lord of the 6th house is owned by retrograde planets.
9. If the 8th and the ascendent lord occupy the 6th the native will develop trouble in the right eye.
10. The Venus is in 6th or 8th the native will have problem in his right eye.
11. If Saturn, Mars and Gulika conjoin with the lord of the second house, the native suffers eye disease.
12. If malefic are in second house from Ascendant and aspected by Saturn the native suffers eye disease and injury.
13. When the lord of the second house occupy 6-8-12 from Venus the native will suffer eye troubles.
14. When Sun is in the trikona sthanas 5 and 9 and gets the aspect of malefic the natives eye will look dull without brightness.
15. When Moon and Mars conjoin together in 6-8-12 the native becomes blind due to fall.

16. When Jupiter and Moon are posited in 6-8-12 the native becomes blind due to seminal discharge.
17. If benefics occupy 6-8-12 house and malefic aspects, then the native becomes blind. When Moon and Mars conjoin together in 6-8-12 the native becomes blind due to fall.
18. If Mars occupy the ascendent when Aquarius is rising the native becomes blind.
19. If malefics are in fifth and fourth house the native loses vision.
20. The native becomes blind if Moon is posited in 6- 8-12 and is aspected by malefic planets.
21. If Moon and Sun are in 12 and not aspected by benefics the native becomes blind.
22. When Rahu occupies 5th house from ascendent or from Venus and gets the aspect of Sun the native's eye will be destroyed.
23. When Saturn is in the 4th and gets the aspect of malefic, the native will lose his eye-sight.
24. If Venus and Moon are in 6-8-12 the native will suffer from Night-blindness.
25. If the lord of the second house is occupying the ascendent along with Venus and Moon, the native suffers from night-blindness.
26. If Saturn is posited in the 2nd house the right eye of the native is affected.
27. When Mars or Moon are in the ascendent and if Venus or Jupiter aspects the lagna the native will be one eyed.
28. If Moon is in the 7th house in Leo and aspected by Mars, the native will be one eyed.
29. When Sun occupies fifth and ninth house and gets the aspect of malefics his eyes will not be firm i.e. it will always be moving.

Though the above rules are widely defined the rule of eye need to be supported by the Drekkanna called as decanate in Chapter 12 of Brihat Parasara hora sastra in Page 130 & 131.

Typically eye impact is observed as per the decanate of First Decanate in 3rd cusp for left eye and 12th cusp in first Decanate. This is contrary to multiple other books of Jataka Alankara published by Sarawathi Mahal Publication.

In the Jataka ALangara it is given as Left eye as on 2nd cusp first decanate and 12th cusp of second decanate. This is in alignment to multiple other cross referenced articles.

Second house typically represents the second house as Right Eye and 12th house represents the Left eye for male and reverse for female gender.

3. Analysis

On Analyzing the Chart as per Research Methodology.

Gender: Male

Birth date: 21-April-1964

Born Location: Chennai.

Latitude: 13N04.00

Longitude: 80E17.00

When this person started wearing glasses?

For this persons, Ascendant is Cancer and it is in the star of Saturn. Ascendant lord is Moon and Moon is in the star of Ketu. Moon is in the Leo.

Moon receives the Saturn's 7th aspect from Aquarius. For the sixth cusp, Saturn determines the medical illness.

Second house lord is Venus is present in the 9th house. Sixth cusp lord is Saturn. Venus is the second cusp lord.

Rahu is present in the second cusp in Decanate.

Rahu has unique property of inheriting the planets that sees him and also the place he is at. This means, Rahu inherits the properties of Venus by his presence.

Also the Ketu, Sun, Jupiter present in the 8th cusp is also inherited by 2nd cusp.

For the eighth cusp, operated by Ketu, Sun and Jupiter present in the Aries Lord of Mars.

Then again for the 12th cusp, Moon and Sun's support is required.

By the above 29 Rules and by the Decanate, by the Dasa Bukthi and Andara. This means at the age of 26 during Sun Dasa, Moon Bukthi, he had tears flow from his eyes frequently. Indicating the transit alignment pointing to eye deficiency. This was remediated by the spectacles.

The impact aggravated and reduced power during the 46 years and led to Cataract Surgery and at the age of 47 the surgery on other eye was performed.

At the age of 53, he had serious nervous disorder.

4. Conclusion

In reality the rules provided is observed in accuracy to the findings. All the rules need to be validated to ensure the real time accuracy of the facts and applicable in current time.

The rules should not be looked in direct birth chart and decanate alone. This has to be matched against the transit alignment with Dasa, Bhukti, Andara as required to determine the accuracy of the predictions.
